## LUXURY YACHT CHARTER BY CHARTERMINUTE

This suggested itinerary includes Corsica and an extended trip to Sardinia: it can be achieved with good weather and requires to cruise 3 hours on a daily basis which is a bit more than usual. Fuel is not cheap and Captain Dan will advise you accordingly from time to time on fuel expense so that you can adapt the itinerary.

So far, despite re-opening, Covid PCR test must be done between Corsica and Sardinia and then back again. Each new trip to a new country will be a PCR test. Logistically this might be a bit tricky and make the itinerary a little tight on time and flexibility. Therefore, we recommend to stay flexible and talk to your captain from time to time.

**Thing to know:** if all the guests are vaccinated at least 2 or 3 weeks before the charter, the Covid procedure will be less restrictive.

### **Departure from Fontvieille**

This is a long trip (5 or 6 hours) and a night at the small port of St-Florent will be relaxing and pleasant.
